Hardknock

Credence NoBrim Type II Safety Helmet NON-VENTED

Modern shape and NoBrim design for work in tight spaces. Lightweight and built to keep you cool, even with a Class E compliant, Non-Vented shell. 93% porous Nuro Core to protect against brain torque. Grip-lined perimeter. Built so you can build like hell.

ANSI TYPE II

Exceeds ANSI Z89.1 Type II & EN 12492 standards to protect from top, front, side, and rear impacts.

CLASS E ELECTRICAL-RATING

Designed to reduce exposure to high-voltage conductors, offering dielectric protection up to 20,000 volts.

NURO BRAIN PROTECTION SYSTEM

Built around Nuro Core™ to help protect against brain torque, the leading cause of concussion and traumatic brain injury.

FULLY-CUSTOMIZABLE

We can hook up your Hardknock with your own logo and custom colors. Just let us know what you're after, and let's get the look right.

WOBBLE-FREE FIT

By using no hinges in our fit system, we eliminate every last bit of wobble and noise.

LIGHTWEIGHT

Hardknock helmets are very light. But more importantly, they feel light. Thanks to a weight-optimized design that distributes mass right.

ALL-DAY COMFORT

Designed to be so comfortable you won't want to take it off. From the time you punch in, to the time you punch out.

LOWER DOME

Low-profile design makes it feel more stable and reduces bumping and clipping.
