INSPIRATION *at your door*

welcome

There's a reason why a welcome mat is placed at the foot of a door. A door is the warm greeting as you enter the home. Conversely it is the welcoming promise of the world beyond as you leave those walls behind. The closing of a door can bring comfort and security. The opening leads to possibilities and wonder. As the first and last impression, a door is not only representative of your creativity and style, but it's something that helps transport you to and from life's events. Choose the right door and welcome beauty, elegance, character, and of course, unparalleled quality to your life.

Doors Specs if You Want to Paint an Exterior Door a Dark Color

For the best product performance and for your door's warranty to stay intact while painting the door a dark color, order your Simpson door with the following specs:

- Select a design from the Nantucket Collection™ (77000 series).
- Select Accoya as the wood type and Simpson will automatically prime the door at the factory. Also, your door will be made with mortise-and-tenon joinery with no face pin.
- Your door will carry a 10-year warranty with no overhang required.
- As with all Simpson doors, products must be finished on all six sides for warranty to apply.

Please note: stainless steel or non-ferrous hinges must be used with Accoya doors. If wood becomes exposed during machining of the door, make sure to re-prime all wood surfaces.
