Hardknock

Credence NoBrim Type II Safety Helmet VENTED

The Credence NoBrim offers a clear view when looking up and doesn't get in the way when working in tight quarters. Featuring huge vents at top, sides and rear – plus a 93% porous Nuro Core for more airflow than any other safety helmet. Here to help you do the hard things.

ANSI TYPE II

Exceeds ANSI Z89.1 Type II & EN 12492 standards to protect from top, front, side, and rear impacts.

VENTED

More airflow than any other safety helmet there is – with huge vents at top, sides and rear totaling 20 sq. cm. of ventilation plus a 93% porous Nuro Core.

NURO BRAIN PROTECTION SYSTEM

Built around Nuro Core™ to help protect against brain torque, the leading cause of concussion and traumatic brain injury.

FULLY-CUSTOMIZABLE

We can hook up your Hardknock with your own logo and custom colors. Just let us know what you're after, and let's get the look right.

WOBBLE-FREE FIT

By using no hinges in our fit system, we eliminate every last bit of wobble and noise.

LIGHTWEIGHT

Hardknock helmets are very light. But more importantly, they feel light. Thanks to a weight-optimized design that distributes mass right.

ALL-DAY COMFORT

Designed to be so comfortable you won't want to take it off. From the time you punch in, to the time you punch out.

LOWER DOME

Low-profile design makes it feel more stable and reduces bumping and clipping.
