Architectural Home Styles Guide

FIBERGLASS & STEEL DOOR SYSTEMS

DESIGN YOUR ENTRYWAY LIKE A PRO

Our Smart Door Finder uses an AI-powered search function to find the perfect door to match your unique home, style or vibe.

Answer a few style questions, select a prompt or use the chat box to receive door recommendations for your home. To get started, visit **thermatru.com/smart-door-finder**.

USING THIS GUIDE

For simplicity, all examples shown are 3’0” x 6’8” single doors. More sizes and configurations are available. For different surfaces, glass designs and other options, see the Therma-Tru Fiberglass & Steel Doors Catalog or visit **thermatru.com**.

The door says a lot about a home. Let us help you find inspiration.

BLENDING STYLES AND SPACES

Today's homes blur the lines between modern, casual and traditional styles as each design borrows elements from the others. Decorative accents that make a statement tend to set the tone for the overall aesthetic, giving the space a modern, casual or traditional vibe. Across the board, nature-inspired details and modern influences are cropping up as homeowners seek out simplicity.

Indoor and outdoor spaces are also blending together as the feeling of home extends beyond four walls. Outdoor spaces reflect personal style, indoor environments bring comfort and security, and the entryway bridges these two elements seamlessly.

Choose a door that brings out the best of your home's style. It starts with a stylish front entry door from Therma-Tru.

PROVEN PERFORMANCE

Your front door is your home's first line of defense against the elements — it should protect against water infiltration, help improve your home's energy efficiency, and provide unparalleled durability that lasts generations.

PROVEN PROTECTION

Your family's safety is your top priority — and ours. When you lock your door, you should feel confident that who and what matters most is safe and secure.

LASTING BEAUTY

You deserve an extraordinary entryway — one that honors your home's architectural details and provides a warm welcome for friends and family. When you choose a Therma-Tru door, you're choosing a look that lasts — providing a timeless backdrop that looks as good as it did on day one.

TOTAL CONFIDENCE

We can stand behind more parts and for longer than most other door companies because we make or specify everything that goes into our door systems.

The only door you'll ever need.™

Choosing a fiberglass entry door system can help increase your home's curb appeal, especially when you select a style that complements exterior architectural details.

LIFETIME
LIMITED WARRANTY

Classic Craft® complete entryway systems are backed by a comprehensive 1x transferable lifetime limited warranty from the entry door brand building professionals choose most. This warranty can be transferred one time to a new owner, should you ever sell your home.

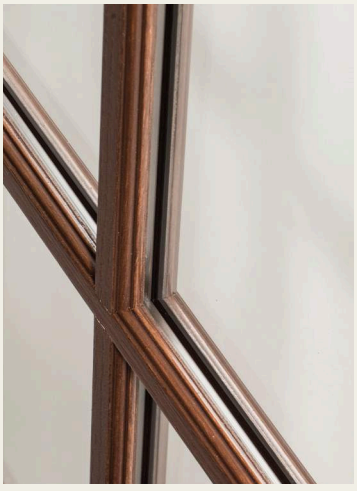
All Fiber-Classic, Smooth-Star and Pulse fiberglass doors are backed by a lifetime limited warranty.

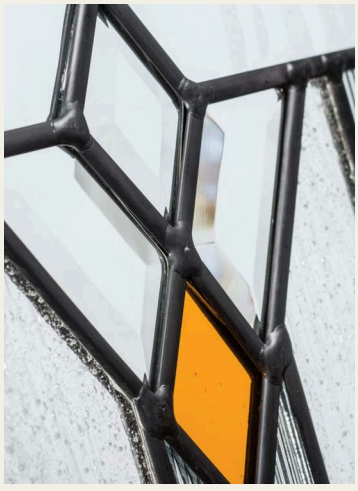
2 | Choose Your Opening

If you're replacing your door and doing a very simple remodel, you might not be able to modify your existing configuration. But if you're doing a more extensive remodel, or building new, think about adding sidelites or a transom. Your Therma-Tru seller can help you decide which one best meets your needs.

3 | Choose Your Glass

Adding glass to your door will maximize the beauty and curb appeal of your entryway. Choose from a variety of decorative glass options or opt for grilles, blinds, clear or energy-efficient Low-E glass. Our glass collections offer a variety of privacy levels and caming options to fit your personal style.





Note: See your Therma-Tru seller or visit thermatru.com for details on limited warranties and exclusions.

4 | Choose your finish

Handcrafted and professionally applied in a controlled environment, PrismaGuard® premium finish is built to last, giving you confidence and peace of mind.

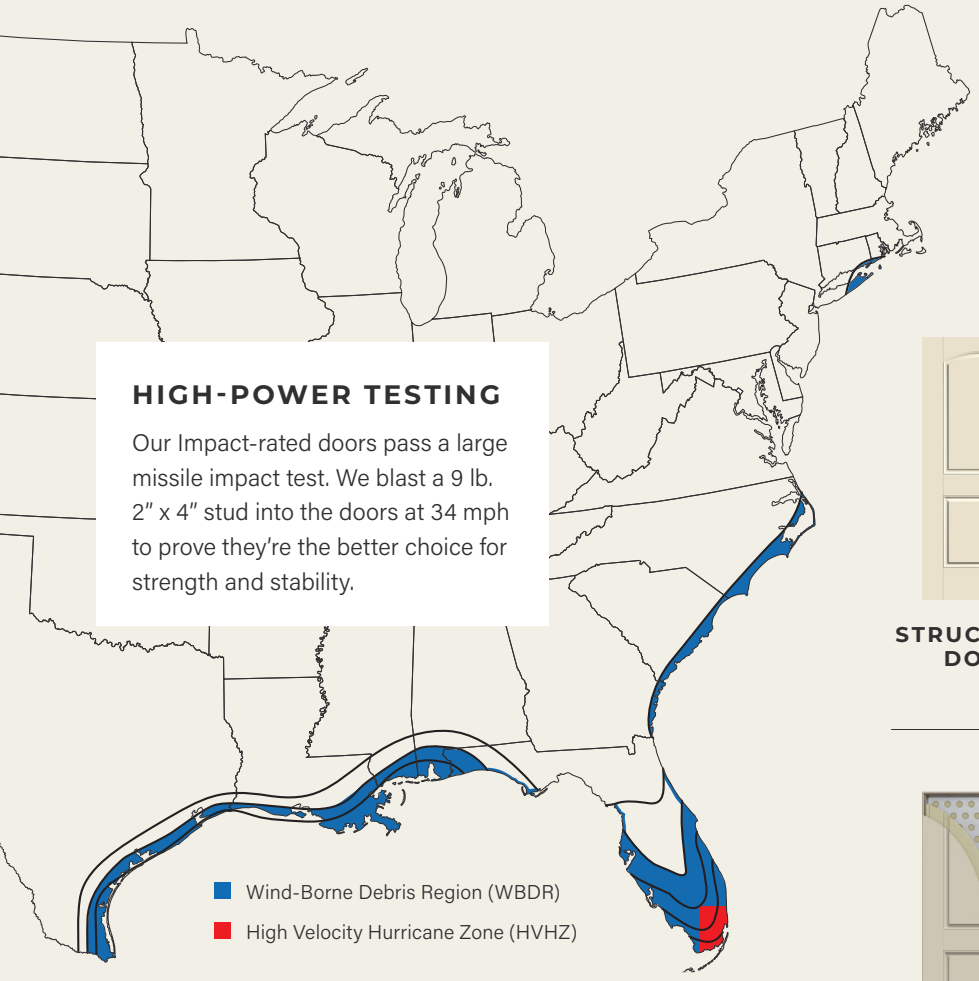
Additional Options

Therma-Tru offers Impact-rated doors and glass that can be used to meet high-wind and coastal region codes and regulations, offering excellent performance in extreme weather conditions while providing added protection. Always confirm building code requirements in your area before buying.[1]



HIGH-POWER TESTING

Our Impact-rated doors pass a large missile impact test. We blast a 9 lb. 2″ x 4″ stud into the doors at 34 mph to prove they're the better choice for strength and stability.

[1]Product approvals show that the door system meets applicable codes when selected, assembled and installed as instructed.
Note: Finish colors may vary from an actual application due to fluctuations in finishing or printing. See your Therma-Tru seller for details on the PrismaGuard warranty and exclusions. See your Therma-Tru Seller or visit thermatru.com for product approvals and installation instructions. Always confirm building code requirements in your area before buying. Follow weather and news reports to assess severe weather situations and obey local authorities' shelter and evacuation orders. No product guarantees safety for persons or property, nor makes any premises hurricane- or impact-proof.
