# MANUFACTURING

Ralph Newman founded Newstripe, Inc. in 1981. The first factory was his garage and the first products were simple, inexpensive striping machines.

From that humble beginning **Newstripe™** has grown to a comprehensive product design and development company manufacturing more than 50 different machines and over 2000 stencils.

And yes, we still manufacture all our products in Aurora, Colorado. We are proud to label our products **"MADE IN AMERICA"**

Item# 10003033

Newstripe, Inc. is proud to present the revolutionary **LineRider GPS+** sport field marking system. This unique machine quickly mounts on most commercial grade UTVs making it the fastest, most durable and economical GPS Auto-Steering striping system available.

Forget those long, labor intensive days of manually laying out the field before line striping it. No more searching for reference points, measuring, squaring and stringing the lines. The **LineRider GPS+** does all the work for you. Simply position the machine on the field, and then select the field type from the list of pre-programmed fields on your I-Pad. Go to the provided coordinates on the I-Pad and just hit the GO button, sit back and relax. The **LineRider GPS+** machine will automatically begin striping. Minutes later your field will be completely and perfectly lined with **sub-inch precision**. Name and save the field layout on your I-Pad and next season you are immediately ready to start painting, no set up required.

The UTV mounted **LineRider GPS+** stripes at speeds up to nine miles per hour. A full size Soccer field takes less than fifteen minutes to completely paint. Ultimately, the time and cost associated with labor are cut to just a fraction of what other painters systems can provide.

**Item# 10003033**

Newstripe, Inc. is pleased to introduce the revolutionary **LineRider™** UTV mounted field striping and marking machine. Simply slide it into your current UTV's bed, plug in the power cord, and you have fastest, most durable, and economical riding field striping machine available. No more pushing a walk behind striper for miles a day. Just sit in the comfort of your UTV, and let it do the work for you.

**For Use with All Athletic Bulk Paints** – Accommodates all athletic bulk paint, whether it be thick, thinned, or temporary paint. No more paying extra for expensive proprietary, boxed paint. Choose whatever paint works for your application.

**Reduce Paint Budget** – The fully adjustable, 0-3000 psi airless paint pump allows you to select the best pressure to perfectly apply your paint, regardless of the type of field surface that is being painted.

**Fast** – Stripe up to 6 mph. That's three times faster than typical walk behind stripers.

**Economical** – Priced at less than \$7000 the LineRider UTV has features unavailable on any other field striping machine.

**Fits on most popular UTVs** – John Deere, Kabota, Ranger.

**Easy Installation and Removal** – Quickly slides into the bed of a UTV. The power cord simply plugs into the UTV, and you are ready to stripe. It is that easy and takes less than ten minutes. Need to use your UTV for other jobs? No problem. Removal is as easy and quick as the installation. The total weight of the LineRider is less than 180 pounds which allows it to be handled by as little as two people.

# Newstripe NewRider™ 5000 HPA

**Item# 10003033**

- Built to handle the demands of medium to large size athletic field complexes.
- Rear wheel steering for tighter turning radius and increased maneuverability. Stripe 2"-6" wide lines
- Convenient foot operated controls provide maximum command of the airless spray system from the comfort of the driver's seat.
- The innovative lower deck height design optimizes the operators line of sight for straighter and more accurate lines.
- The generous 50-gallon poly tank stripes 3 football fields or 6 soccer fields with just one fill. Plus, the onboard purge tank makes clean up a snap.
- **New for 2020**, System pressure gauge and hour meter to help keep your machine maintained and running properly.

# Newstripe NewRider™ 1700 HPA

**Item# 10004026**

- The perfect solution to quickly paint small to medium size sports facilities.
- Encompasses reliable airless spray technology and unsurpassed quality construction for years of dependable operation. Stripe 2"-6" wide lines.
- The integrated 2.5 gallon purge tank cleans the spraying system to eliminate clogged spray gun and hoses.
- Compact design with low center of gravity provides increased stability and control.
- The 25-gallon poly tank stripes an entire football field or up to 3 soccer fields without the inconvenience of stopping to refill paint.
- **New for 2020**, System pressure gauge and hour meter to help keep your machine maintained and running properly.

# Newstripe 4600™ SP Self-Propelled

**Item# 10003031**

All the great features of the model 4400™ plus:

- No more pushing with the easy to use variable speed friction drive self propelled system allowing for effortless striping and increased operator control.
- Add the optional rear caster for effortless circles and arcs. (also available on the 4400 and 4250)
- Add the optional cleaning tank for fast and easy cleanup. (also available on the 4400 and 4250)

## Newstripe 4400™ Airless Walk Behind

**Item# 10003566**

- The four wheel design provides straighter lines and the OHV engine with Oil Alert increases long term dependability.
- Fully adjustable 0-3000 psi pump lets you spray perfect lines without wasting paint.
- Handle mounted controls let you quickly and efficiently stripe 2"-6" wide lines.
- Quickly remove the spray gun to paint stencils and hard to reach areas.

## Newstripe 4250™ Airless Walk Behind

**Item# 10003947**

- Newstripe's most economical high pressure airless striper.
- Stripe professional quality 2" - 6" wide lines on both smooth and uneven surfaces.
- The lightweight design makes it easy to push across the roughest athletic fields.
- Built with proven airless technology that is both dependable and easy to use.
- Removable gun with 25 foot hose for painting stencils.

# EcoLiner™ SP Field Striping Machine

**Item# 10004621**

- Easy to maintain and clean low pressure system.
- 12 foot hose for stencils or hard to reach areas.
- Pro-series Briggs and Stratton engine with oil alert eliminates the chance of oil starvation.
- No more pushing with the easy to use variable speed friction drive system allowing for effortless striping and increased operator control.
- Optional cleaning tank for fast and easy cleanup on the field.

# EcoLiner™ LT Field Striping Machine

**Item# 10005159**

- At 82 lbs it is engineered for weight savings, allowing one person to load and unload from a vehicle and easy to push on the field.
- 5-gallon standard pail makes for quick and easy cleanup and color changes. Recirculating pump keeps paint mixed while striping.
- All welded steel construction and quality components mean years of quality service.
- Detachable spray gun with 12 foot hose to paint stencils or hard to reach areas.

# EcoLiner™ Plus Battery Powered Field Striper

**Item# 10004484**

- Equipped with a rapid charge 120 volt plug in battery charger.
- Optional onboard clean water reservoir for instantaneous purging of the spraying system.
- Detachable spray gun with 10 foot hose. Sprays 2"-6" wide lines.
- 10" Flat free tires easily roll over uneven turf.

# Newstripe FieldLiner 3™

**Item# 10004867**

- Ideal for those on a tight budget who want to step up from aerosol can markers and save money by using bulk paint.
- The side mounted spray head adjust from 2 inch to 6 inch wide lines and can be removed to spray stencils.
- A built in hand pump pressurizes the paint.
- The full loop handle adjust to two different height positions and folds to fit easily into car trunk or SUV.
- Shown with optional CO2 Power pack.

**CO2 Power Pack Item # 10004869**

## NewLiner™ HD 50 lb & 100 lb Dry Line Marker

**Item# 10001744 & 10001745**

- Made with galvanized steel material containers to prevent rusting. Line sight window in rear frame.
- Dual welded structural steel handles and chassis make for the most durable heavy-duty dry line field marker available. Made in the USA.
- Lever and rod with positive stop plate for precise 2 inch or 4 inch wide lines. 50lb or 100lb models.
- The four wheel design and 10" flat free tires provide straighter and more accurate lines.

## NewLiner™ 50 lb & 25 Lb Dry Line Marker

**Item# 10001298 & 10001300**

- The original American Made infield chalkers.
- Oversized foam rubber handgrips for increased operator comfort. Made in the USA.
- 8 inch semi-pneumatic tires. 25lb or 50lb models.
- Precision control for 2" or 4" wide lines
- The folding handle makes it easy to transport the machine between fields in car trunk or SUV.

# Dirt Doctor Jr™ Infield Drag & Groomer

**Item# 10003679**

- Designed for use with 4-wheel drive utility vehicles or tractors with 1,100lb min towing capacity.
- Plow, pulverize, drag, and compact in just one pass.
- Quickly adjusts to your infield grooming needs without needing any tools. 48" wide cutting path.
- Maintain the perfect playing surface with multiple height positions and pulverizing depths up to 3 inches .
- Adjustable towing height.

# Dirt Medic™ Infield Drag & Groomer

**Item# 10003315**

- Designed for use with garden tractors, lightweight utility vehicles and ATV's.
- Designed to fill, level, and finish infields in a single pass. 42" wide cutting path. 60" wide brush.
- Quickly adjusts to your desired grooming depth.
- The attached finishing brush effortlessly grooms the playing surface and provides an attractive finish to your infield.

# Drag King™ Infield Drag & Groomer

**Item# 10001592**

- For use with light weight utility vehicles and ATV's.
- Features a flexible 3-section component design that adjust for different levels of grooming.
- Combines the aggressive field conditioning benefits of heavier tractor pulled equipment with the freshly groomed finish of hand pulled drags.
- Scarifier cuts up to 1" deep or simply flip over or remove for finishing. 48" wide cutting path.
- Remove high spots or fill in low areas.

Item #3 foot 10002626  
Item #6 foot 10002627

- Ideal to keep your infield in optimum playing condition no matter what the weather conditions.
- Nails are placed 4 inches apart and are staggered for optimum performance. Available in 3ft or 5ft width.
- The Wheel Kit allows for quick and easy nail height adjustment for the penetration depth, as well as conveniently towing the unit from field to field.
- Built from heavy gauge structural steel and industrial components. They will last for years.

## Drag Lite™

Item# 3 foot 10004485  
Item # 6 foot 10004486

- May be pulled by hand or lawn tractor and features a unique flip over design.
- 11 gauge lead bar has a serrated edge to scarify surfaces or simply flip over for a mat only finish.
- Mat won't kink or rust.
- Built with Reinforced rubber and industrial grade material.
- Available in 3ft and 6ft wide models.

## Custom Field Mascot Stencils

Quickly and easily paint multicolored mascot stencils. These stencils allow for precise transfer of your custom image to a variety of surfaces and are reusable.

Contact us to find out about making your logo or mascot into a stencil.

# HashMark™ Master II

- No need for repeated measuring or using stencils and templates that require a two or three man crew.
- Uses your stripers spray gun so there is no need for additional tools or accessories. Creates a 24" hash mark.
- Follow the automatic measuring guide from one hash mark to the next, paint it and move on.
- Five times faster than other methods
- US Patent #7.367.515.B1

**Low pressure: Eco-liiner modes. Item #10004801**

**High pressure: 4250, 4400, 4600 modes. Item #10004800**

# HashMark™ Master II—S100/3400

**S100/Item# 10004868**

- Specifically designed for use with the Graco® S100 field striping machine. Creates a 24" hash mark.
- One person can easily paint hash marks five times faster than other methods. No measuring or templates required.
- Uses Graco's own spray gun so there is no need for additional tools or accessories.
- Follow the automatic measuring guide from one hash mark to the next, paint it and move on.

**3400/Item# 10004868**

- Fast, inexpensive and simple to use.
- Rear mounted flip up hash mark stencil.
- Pays for itself the first time you use it.
- Mounts on any Newstripe walk behind striper.
- Easy to clean insert effortlessly creates 18"-24" hash marks.

**Item# 10004850**

# ProLine™ Field Layout Systems

- Kits for All Sports: Football, Soccer, Baseball... They come complete with starting tool and 600 feet of high-grade cord.
- No open holes to catch players' shoe cleats or fill with debris.
- Made from super tough nylon the ProLine™ layout system will last for years.
- Three year warranty.

**Baseball:** 12 piece  
**Soccer:** 25 piece  
**Football:** 50 piece  
**Replacements:**
