FLOOR FINISH 20%

This finish provides excellent protection for all types of floor coverings, such as vinyl and vinyl asbestos tile, asphalt or rubber tile, linoleum, terrazzo, concrete, sealed hardwood, etc. Extra tough polymers give it super durability, even in extreme traffic conditions. Smoothly flows onto the floor surface and spreads quickly and completely without any ridging or streaking. Highly developed leveling characteristics. Meets the most critical expectations for beauty, protection and wear. The "wet look" shine is virtually transparent. It enhances the beauty of your floors and it does not change the color. Even subtle hues stay true and the shine is bright. Due to its high level of solids, it is often possible to refinish stripped floors with less coats and still obtain a beautiful shine. Maintenance is easy. This floor finish can be mopped with mild detergents without harmful effects and heavy traffic areas can be recoated successfully.
