Toll Free: 800-865-1551

CAPABILITY STATEMENT

Diversified Supply, Inc. (DSI) began operations in October of 1987. DSI is a minority owned full line electrical wholesaler, distributing electrical, industrial and construction products along with repair and MRO supplies. Headquartered in Chattanooga, DSI has a network of distribution centers (Alabaster AL, Aiken SC, Chattanooga TN, and Cincinnati OH) for regional, national and international order fulfillment.

Having been in business for over three decades, DSI's experience in electrical supply distribution and service affords us the ability to leverage national procurement volumes, and maintain flexibility to meet a variety of large customer MRO needs. Over the years, DSI has assisted with the electrical material requirements of construction projects, utilities (Fossil, Nuclear & Hydro Power Generation), manufacturing, and government entities supplying products produced by "Cutting Edge" manufacturers. Additionally, DSI is a Grainger Distributer Alliance Partner which avails DSI to Grainger's entire MRO product catalog and vast network of distribution locations allowing clients to capture MRO spend as tier-1 diverse spend.
