Discover the Moldex Difference

Our mission is to create earplugs that people will want to wear, not just what they need to wear. From material choice to quality assurance, we spare no detail to ensure that our earplugs and dispensers are the first choice and the right choice for all of your hearing protection needs.

Our family of earplug dispenser solutions are:

Anywhere and everywhere

Using either the included wall-mounted bracket or the innovative Moldex Magnetic Bracket, you can install our earplug dispensers virtually anywhere and everywhere to help increase compliance and make it convenient for workers to protect their hearing.

Designed to reduce waste and cost

Users take only one pair of earplugs at a time. This helps to prevent wasteful grabbing of multiple pairs, which in turn will help lower overall hearing protection program costs.

Recyclable

All empty EcoStation® bottles are 100% recyclable in the standard #1 “blue bins.”

100% PVC-free

We were the first PPE manufacturer to completely eliminate PVC from our products and packaging. This is better for the environment and can help support companies' overall “green” initiatives.

Independently tested

All of our earplugs are independently tested by Michael & Associates Laboratory to ANSI S3.19-1974. We independently test all of our NRR ratings because we believe our users deserve to have full confidence in the level of protection they can expect to receive when their hearing protection devices are worn properly.

Made in America

We are proud to support our economy and our country by making all of our earplugs and manual dispensers right here in America.

ECOSTATION

The Simple Way to Save Green & Be Green

- ✓ **Economical** to help lower hearing protection program costs
- ✓ **Snap-in refill** for the fastest and easiest changeover available. The sealed refill also helps to prevent contamination.
- ✓ **100% recyclable bottle**

ECOSTATION

The Simple Way to Save Green & Be Green.

Innovation and sustainability are at the heart of our products, and these values are clearly demonstrated in the original EcoStation. All of our EcoStation products feature a snap-in refill that can be changed in seconds and the empty bottles are 100% recyclable.

500 Pairs

ANTIMICROBIAL ECOSTATION COPPER

EcoStation With an Antimicrobial Touch Surface.

We've merged Moldex quality with the protective properties of copper to introduce EcoStation Copper. The dispensing handle features a CuVerro® copper surface that continuously kills bacteria* left behind by dirty hands, killing more than 99.9% of bacteria* within two hours. Laboratory testing has shown that when cleaned regularly, this surface:

- **Continues to kill 99% of bacteria*** even after repeated contamination
- **Helps inhibit buildup and growth of bacteria*** within 2 hours of exposure between routine cleaning and sanitizing steps

500 Pairs

*Staphylococcus aureus, Enterobacter aerogenes, Methicillin-Resistant Staphylococcus aureus (MRSA), Escherichia coli 0157:H7, and Pseudomonas aeruginosa.

TOUCHFREE ECOSTATION

A Hygienic Solution to Earplug Dispensing.

Hearing protection has never been easier to access. Simply place your hand under the automatic dispenser and a pair of earplugs will drop right into your palm. With the TouchFree EcoStation in your corner, you can eliminate touch points and choose a greener, cleaner workplace for all.

500 Pairs

MAGNETIC BRACKETS FOR ALL ECOSTATIONS & PLUGSTATIONS

Keep an Earful Within Easy Reach.

Hang earplug dispensers throughout a facility in seconds and make it easier for workers to quickly access their hearing protection. Moldex magnetic brackets are the first of their kind and fully compatible with all PlugStations and EcoStations.

Hang almost anywhere from vending machines to lockers & metal cabinets!

PLUGSTATION[®]

The Most Popular Earplug Dispenser on the Market

- ✓ Sealed container to ensure plugs remain clean and sanitary
- ✓ No catch trays that can increase the spread of contamination
- ✓ When the PlugStation is empty, simply dispose of it and hang a new one
- ✓ Hygienic, cost-efficient, PVC-free and easy to hang/remove

UNCORDED PLUGSTATIONS

Our Most Popular Product. A Style & Fit for Everyone.
