# Bilingual Spanish Safety Tags

**Keep English- and Spanish-speaking workers safe.**

Where there is a mix of English- and Spanish-speaking employees in the workforce, tags printed in both languages are ideal to identify temporary hazards.

Tags follow the design features as specified by OSHA 29 CFR 1910.145(f) and ANSI Z535.5.

ANSI Z535.5 In certain areas of the country where languages other than English are primarily used, consideration may need to be given to providing messages in other languages.

### *English / Spanish (Mexican Dialect)*

# Repair Tags

**Reduce the risk of potential loss while waiting to mark damaged equipment.**

- Immediately mark equipment that needs repair
- Easily take important information by tearing off the bottom portion of the tag
- Use it to complete, notify, and initiate proper repair procedure
- Printed with random start sequential numbering that matches on the top and bottom portions

# Blank Numbered Tags

**Save time with dual use Blank Tags.**

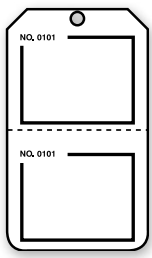

- Two-part tag with blank spaces to write in any required action
- Top portion provides current action taken
- Bottom portion can be used to identify revised status or as a notification to responsible party to initiate action
- Two tags in one, eliminating the need to re-tag when the status changes
