Standard S71
Bid Specs

Bid Summary: The Bullard Model S71 is a full-brim hard hat offered with the option of a pinlock or ratchet suspension which features a replaceable cotton brow pad. The suspension system has four points of attachment with four separate keys for a secure fit and 3/4" wide crown straps for comfort.

Specific Features:

- Hat style helps protect against splash, glare and sun exposure, and features a permanent under-brim glare guard.
- Your choice of either the self-sizing 4-point pinlock suspension (RS4PC) or 4-point dielectric, Flex-Gear® ratchet suspension (RS4RC). The upgraded suspension system provides a more comfortable, secure fit.
- Pinlock suspension – Incremental sizing of 1/16 hat size (5mm) makes a secure fit easy.
- Ratchet suspension – Ratchet suspensions can be adjusted between hat sizes 6 $^{1}/_{2}$ - 8.
- Pinlock and Ratchet suspensions have vertical adjustment capability (two in front, two in rear) for a secure fit to different head sizes.
- Wide (3/4") crown straps provide more comfort and helps the suspension system absorb energy. The round, wide crown area also allows for good ventilation.
- Replaceable cotton brow pad is pillowed for maximum comfort. Velcro replacement brow pads are available in absorbent cotton, a cooling material, or a vinyl material.
- Pad print capability in up to eight different locations on the hat – logos may have up to six colors per location.
- Two-year warranty. Bullard reputation can be seen in the attention to detail on comfort and fit.
- Distinctive Three-Rib trademark.
- Made in the USA.
