THE "ORIGINAL"

Form fitting, durable molded design. Co-Polymer padding provides excellent knee protection. CoolMax® lining wicks away moisture. Ribbed kneeling surface helps prevent slipping. Lightweight and comfortable all day protection.

#840-00 - with single elastic strap and hook/loop closure

#840STRAP - replacement elastic straps

UOM: PR, CASE 40 | ONE SIZE | CE

100% PVC-FREE

ABOUT KNEE PROTECTION

Continuous pressure on the knee due to working in a kneeling position may lead to chronic conditions, such as bursitis over the knee cap or injury to the cartilage. Excessive pressure can cause problems such as knee burn pain, fluid build up, tissue swelling, loose joints and associated arthritic conditions. Major knee damage will occur when combining existing trauma with prolonged pressure and irritation along with turning and twisting motions. The use of knee pads is an effective way to reduce the occurrence of knee injuries. Knee pads protect against injuries and inflammation caused by hard surfaces, pieces of gravel and similar objects on ground. The wide range of IMPACTO® Knee Pads provide a viable solution to workers to help prevent knee injuries and the onset of cumulative trauma to the knee.

100% PVC-FREE

HARD SHELL KNEE PROTECTION

- Co-Polymer foam padding provides excellent knee protection
- Kneepad bends with the knee for comfort and flexibility
- Flat kneeling surface provides stability when working
- Ribbed kneeling surface helps prevent slipping
- Lightweight and comfortable all day protection
- Helps prevent knee and hip joint stress
- CoolMax® lining wicks away moisture

#825-00 - with removable double elastic straps and hook/loop closure

#825-01 - with side release plastic buckle closure

UOM: PR, CASE 18 | ONE SIZE | EN 14404+A1:2010

CO-POLYMER RUBBER COVER
Prevents marring and scratching, Sewn cap helps keep debris out

REAL GEL
Injected directly into a donut shaped pad to provide comfortable knee cushioning

TOP STRAP
Adjustable elastic with hook/loop closure for easy fastening

ELEVATED FACE
Improves stability & traction, absorbs shock, helps support the knee while acting like a suction cap to prevent from rocking

LOWER STRAP
Wide mesh elastic strap provides breathability and helps reduce bunching with hook/loop closure

INNER LINING
Wicks away moisture for comfortable wear

SIDE TREADS
Absorb pressure around the perimeter of the knee

HEAVY DUTY BINDING
Assures long lasting wear

EXTENDED HEEL
Supports the shin, helps distribute body weight reducing stress on the ankles and back discomfort

BALLISTIC NYLON
Outer cover is highly resistant for most work environments

100% PVC-FREE

#864-00

100% PVC-FREE

Sewn-on cover, GEL padding provides maximum comfort and knee protection. Breathable nylon mesh covers the padding. Double elastic straps with hook/loop closure. Elevated face with side extended threads offer extra stability.

UOM: PR, CASE 24 | ONE SIZE | EN 14404+A1:2010
