W20 Series Specialty Welding Helmets: Whether you are in a high-heat environment, welding in a tight space or simply long for a lightweight alternative while welding, these helmets are ideal for special welding applications.

Characteristic	Value
Light vulcanized fiber shell	Comfortable, yet cool heavy-duty welding
Fixed front with aluminum frame filter plate holder	Ideal for high-heat applications
Every helmet comes preassembled with a clear safety plate, Shade 10 replacement parts, filter plate and headgear	Unit ships complete, ready to wear

Not suited for damp environments or overhead welding

411P Parts Kit

Workmanship Requirement

Helmets shall be made in accordance with reasonable industry practice with respect to defects or dirt and contamination. Helmets should be packaged as specified having described shape, dimension and color in the appropriate quantity as listed.
