Introducing the Studson™ Industrial Safety Helmet

EMERGENT SAFETY SUPPLY

STUDSON™

The revolutionary SHK-1 is the most innovative industrial safety helmet to hit the market. Designed specifically for the construction market, the SHK-1 utilizes cutting edge head protection components used in gravity sports, but never before used together in an industrial safety helmet.

INNOVATIVE NEW DESIGN

- Integrated Koroyd® panels protect the head in critical impacts zones, paired with an EPS liner and ABS shell for ultimate durability

- Visor with under brim integration, ear protection easily clips into the side rails, rear brim modularity and 4 headlamp clips

Koroyd

- Designed to keep rain out of vents, paired with Koroyd® welded tubular makeup, provides unrivaled breathability and exhausting of hot air

- Industry first silicone shearing pads allow for rotational energy absorption upon oblique impacts and finished with a silver anti-microbial fiber reducing bacteria

twICEme

- twICEme®NFC (Near Field Communication) chip embedded in the helmet which stores and gives vital emergency information to first responders when seconds matter

- Fidlock® Magnetic Buckle Enclosure with adjustable nylon 4-point strap, allowing for maximum adjust ability and easy one-handed use with gloves

- Sleek 360°Fit System with 20mm of adjustability up or down ensures a secure fit and comfort for all head shapes and sizes
