Honeywell | Respiratory Protection

NORTH

Honeywell Backpack Adaptor

Product description

The Honeywell Backpack Adapter relocates cartridges and filters out of the work zone, placing them on the user's back and also reduces the weight of mask.

An Oval hose design delivers a low profile allowing the mask to be used under welding helmets.

Adapts easily to Honeywell Full Face piece and Half Face piece air purifying respirators, by screwing securely to face piece cartridge connectors.

*Mask & Filters Sold Separately

FEATURES

- Provides Respiratory Protection that can be worn under a welding helmet
- Can be used with particulate and gas/vapour cartridges, allowing greater filter selection and versatility for different applications
- Keeps filters out of the contaminant zone meaning filters will last longer than filters used in the contaminant zone
- Provides greater worker comfort and acceptance
- Delivers lower operating costs as filters are replaced less often

APPLICATIONS

- Welding Applications: for highly heated areas, limited work space and tight fitting welding helmets

Technical Details

Limitations of use:	Not for use in IDLH environments including atmospheres with less than 19.5% Oxygen
Country of Origin:	USA

Standards

Certified to AS/NZS 1716:2012 License SMK 0563
