Portex® Custom Circuits

Create your own custom order to package breathing circuit accessories and components for your specific procedures and protocols.

Choose from a wide variety of components to help streamline the ordering process (circuit tubing, wye connectors, patient elbows, breathing filters, HMEs, gas sampling lines, breathing masks, breathing bags, etc.)

Ordering custom kits, in some cases, can be more cost-effective than purchasing the components separately.

- **Time savings.** All the items from set-up to procedural application are in one package.
- **Simple ordering.** A single order for each circuit contains all the components you need, improving inventory management.
- **Reduced wastage.** The exact number of components is provided according to patient need and department protocol.
- **Reduced stock.** Custom circuits can be held by your local distributor according to forecast demand.

Call 800.258.5361 to schedule a visit by your local representative today.

Portex® VALUE PACK Custom Kits

- Clinicians can operate faster and more efficiently with a comprehensive kit of components.
- Operating Rooms can be set up faster while lowering turnover times.
- Value Pack means fewer items to stock, helping to make inventory more manageable, reduce re-ordering, and improve overall profitability for your healthcare facility.

Here is a list of optional components for a Value Pack:

COMPONENTS	OPTIONS
Breathing Circuits	Standard or Custom
Breathing Masks	Premium™, Premium Plus™, Premium Soft Plus™ disposable anesthesia face masks
Breathing Bags	Latex, Non-Latex, SureGrip™ Breathing Bags
HMEs and Filters	Thermovent® HEPA Filters, HMEs
Ventilator Tubes	With / Without Filters
ECG Pads	3 Pads / Pack, 5 Pads / Pack, Back Pad
Suction Devices	Yankauer Bulb Tip, Suction Catheter with Valve, Suction Catheter without Valve, Suction Tubing
Endotracheal Tubes	Sizes 7.0-8.0 mm 10 mL Syringes Intubation Stylets
Laryngoscope Blades	Disposables in Macintosh or Miller styles
Oral Airways	Nasopharyngeal Airways I.D. 6.0-9.0 mm Berman Sizes 6.0-10.0 cm Guedel Sizes 6.0-10.0 cm
Esophageal Stethoscopes	400 Series, 12-24 french 700 Series, 12-24 french 700 Series Sub, 12-24 french
Temperature Probes	Rectal Probe, Skin Probe, ACCU-BAR™ Temperature Strip
Blood Pressure Cuffs	Single or Double Tube
Syringes	10 mL or 20 mL
Supplies	Transpore Tape, Alcohol Prep Pads, Tongue Blades, Gloves, 3" x 3" Gauze Pads
