Category	Application	Product	NIOSH Class	SAP ID
Respirators for Oil Environments	Designed for use in environments where oil mist, nuisance-level odors and gases are present. Offering particulate respiratory protection from oil mist and other irritants, R95 respirators are somewhat resistant to oil mist, whereas P95 respirators are strongly resistant to oil mist	8576	P95	7000002061
		8577	P95	7000002062
		8271	P95	7000002047
		8247	R95	7000002060
		8246	R95	7000002059
Flame-Resistant Respirators for Welding	Offering protection from welding fumes, these flame-resistant particulate respirators all feature 3M™ Cool Flow™ Exhalation Valve technology that helps release warm and moist exhaled breath from inside the respirator	8515	N95	7000002112
		8212	N95	7000002027
		8214	N95	7000002083
100 Class Respirators	Offering NIOSH's highest rated filtration efficiency in disposable respirators, our 100 class disposable respirators offer protection in oil and non-oil environments	8293	P100	7000002055
		8233	P100	7000002028

3M PSD products are for occupational use only.

WARNING

These respirators help reduce exposures to certain airborne particulates. Before use, the wearer must read and understand the User Instructions provided as a part of the product packaging. A written respiratory protection program must be implemented meeting all the requirements of OSHA 1910.134 including training, fit testing and medical evaluation. In Canada, CSA standards Z94.4 requirements must be met and/or requirements of the applicable jurisdiction, as appropriate. Misuse may result in injury, illness or death. For correct use, consult supervisor and User Instruction, or call 3M PSD Technical Service in USA at 1-800-243-4630 and in Canada at 1-800-267-4414.
