Accessing R3 on Demand

- Visit: www.r3safety.com
- Click the logo in the upper right hand corner of the screen

Click to LOGIN

Welcome to R3 Safety, your safety supply solution.

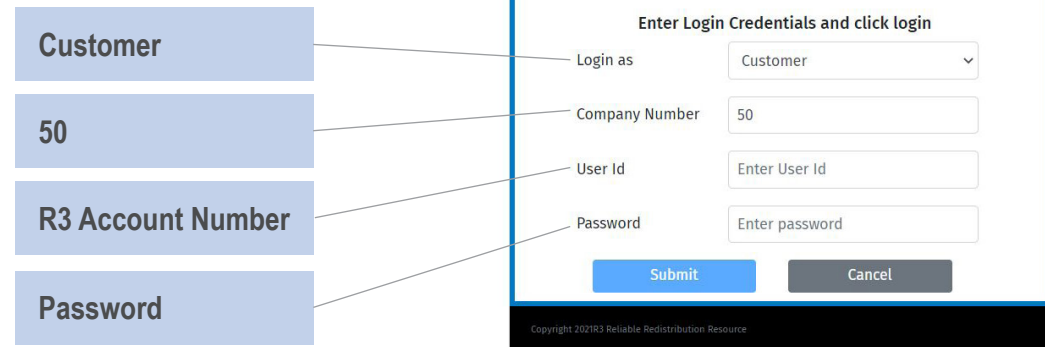

- OR -
Click on **PARTNER RESOURCES** to log in to our **Marketing Warehouse** or **R3 On Demand** portal.

Login Screen

- In the **Login As** box, select Customer
- Enter 50 in the **Company Number** box
- In the **User ID** box, enter your R3 Safety Account/Customer Number
- In the **Password** box, enter your password
- Click **Submit**

The screenshot shows the R3 Login interface. On the left, four blue boxes with white text are connected to the login form by lines. The boxes are labeled 'Customer', '50', 'R3 Account Number', and 'Password'. The login form itself has a blue header with the R3 logo and the text 'R3 Reliable Redistribution Resource'. Below the header, it says 'Enter Login Credentials and click login'. The form contains four input fields: 'Login as' (a dropdown menu with 'Customer' selected), 'Company Number' (a text box with '50' entered), 'User Id' (a text box with 'Enter User Id' placeholder), and 'Password' (a text box with 'Enter password' placeholder). At the bottom of the form are two buttons: 'Submit' (blue) and 'Cancel' (grey). A small copyright notice 'Copyright 2018 R3 Reliable Redistribution Resource' is visible at the very bottom of the screenshot.

Stk*

Represents the stock status at each warehouse

Price

Shows your price per case/pack UOM
Note this is current pricing and does not reflect upcoming price changes

Quantity on Hand

Shows the quantity on hand at each DC at the time the file was downloaded
Note availability is fluid and changes daily based on inventory receipts and order fulfillment

*Stk = Stock status at each R3 Safety distribution centers and can vary based per DC.

-NS are Non-stock items and must be purchased in manufacturer case quantities.

-S are Stocked items and can be purchased (in most instances) in less than case quantity

-Prepaid Freight shipments requested to ship from an alternate warehouse by the customer may be subject to incremental freight charges with notice.

Inventory Download File Format

- The file is downloaded in .csv format. Here are some tips to navigate the file

Blank Spaces - There can be "blank" spaces in the item numbers that could create a challenge if performing VLOOKUP formulas in excel. You can either perform a find and replace to remove the spaces or use the TRIM function in excel to remove unwanted spaces. Blank spaces are not visible on the excel file.

Unwanted characters - Some cells might have an apostrophe included. To remove unwanted characters, perform a find and replace to remove them from your document

Skus could appear up to 3 rows. Each row reflects the inventory available at each R3 Safety distribution center: Fairfield (FAIR), FRSN (Fresno), Houston (HOUS)

Ship Dates are not necessarily accurate on open orders. This is due to default programming in our ERP. In most cases, a product that is in stock will ship within 48hrs of receiving the order. However, nonstock items or items on back order will take additional time before shipping and is not accurately reflected in the ship date displayed

Price File Download Format

- The file is downloaded in .csv format. Here are some tips to navigate the file

Blank Spaces - There can be “blank” spaces in the item numbers that could create a challenge if performing VLOOKUP formulas in excel. You can either perform a find and replace to remove the spaces or use the TRIM function in excel to remove unwanted spaces. Blank spaces are not visible on the excel file.

Unwanted characters - Some cells might have an apostrophe included. To remove unwanted characters, perform a find and replace to remove them from your document

To determine what pricing is changing, you can sort or filter by the Pending Price column. This will limited the skus to assortment to only the items with price changes.

Ship Dates Listed:

Ship Dates are not necessarily accurate on open orders. This is due to default programming in our ERP. In most cases, a product that is in stock will ship within 48hrs of receiving the order. However, nonstock items or items on back order will take additional time before shipping and is not accurately reflected in the ship date displayed.

Maximize Search Functionality

Manufacturer Part Number Search using **DESCRIPTION**

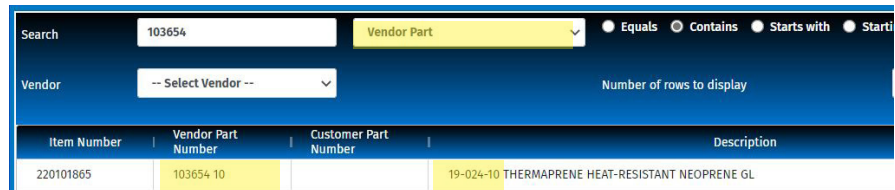

you will get the **best search results** if you enter the MFG # into the search field and then select DESCRIPTION from the drop down menu. Most descriptions begin with the MFG # and will provide you the most accurate search results when looking for specific MFG #s. Your search will return any skus that have the data in the description.

Item Number	Vendor Part Number	Customer Part Number	Description
341501695	MAX-1		MAX-1 *EAR PLUG, MAX UNCORDED 200/BOX

341592425	MAX-1SS		MAX-1S MAX EARPLUG UNCORDED NRR30 ORANGE

Manufacturer Part Number Search using **VENDOR PART**

some manufacturers have a MFG # AND a model number. This can create some challenges when using vendor part number as a search. You can use this function to search by MFG # but may not return the information you are looking for.
