INDUSTRIAL TEAM... DID YOU KNOW?

Email: IndustrialGroup@GraniteCityElectric.com

Phone: 844-368-9317

Industrial Capabilities

Our team of long-time industrial product and industry experts serve a broad market of industrial customers, including MROs and OEMs with energy and time-saving industrial solutions. Our team has developed strong business relationships with facilities throughout New England providing a deep understanding of the unique needs of industrial customers.

Services include:

- Sizing and selection of configured VFD's, HMI's, and PLC Platforms.
- Dedicated account management.
- Factory floor preventative maintenance and safety programs.
- Full local inventory of Industrial Product.

Square D by Schneider Electric Field Services

This offering includes services such modernizing older switch-gear and other equipment (anyone's brand, not just Square D), upgrading and reconditioning circuit breakers, maintenance agreements, ARC flash assessments, five year risk assessments, start up assistance, 24/7 emergency response and much more.

Schneider Electric Industrial Repair Services

Repair services for over 2,500 brands of electronic equipment including PLC and IOs, HMI/Operator interfaces, AC and DC Drives, Process Controls and much more! Repairs carry a comprehensive 1 year warranty on the entire product not just the repaired product.

Additional GCE Services to Support You and Your Facility

Commercial Lighting

Technically knowledgeable team ensures top-quality project management delivering competitive pricing with high service levels. Our close relationships with manufacturers enables us to give you the best lighting solution. Our services include layouts using energy and cost-efficient products, project management, assigned account manager supported by state of the art job management program for all POs, change orders, returns & invoicing.

Delivery Capabilities - GCE Night Train®

Call your order in before 6 pm and it will be delivered while you sleep. Your order will be at your facility, shop or job-site when you wake up. We also offer the convenience of our Night Train Depots in various locations for easy 24/7 pick-up.

Electric Vehicle Supply Equipment

With our key partner ChargePoint, we are able to offer expertise and products to get you started on your car charging unit installs.

Energy Audits

Rebates, Lighting & Controls providing cost-effective, energy-efficient solutions for your facility (new construction and retrofit), our Energy team focuses on LED Technology, utility rebate programs & energy saving products.

Switchgear

Experienced team, dedicated to helping deliver accurate takeoffs for HV, MV, & LV electrical distribution systems. We work with industry leading manufacturers to build your project with the best quality products, while maintaining a focus on performance, safety, and budget requirements. Our services include design assist, project management, equipment inspections, installation support, technical support, studies, start-up, training, and factory witness testing, all if required.

New England's Largest Independent Electrical Distributor.
