Spec Sheet

5105-1 – Steel Auto-locking Carabiner

Material:

Yellow zinc plated alloy steel

Gate Opening

.75" (19mm)

Weight:

8.8 oz. (250 gm)

Overall Size:

2.67" x 4.37" (68mm x 111mm)

Sleeve Diameter:

.79" (20mm)

Frame Diameter:

.45" (11.5mm)

Minimum Breaking Strength Major Axis:

9225 lbs. (41 kN)

Minimum Breaking Strength Minor Axis:

3600 lbs. (16 kN)

Proof Test:

3600 lbs. (16 kN)

Gate Strength:

3600 lbs. (16 kN)

Standard Compliance:

OSHA, ANSI Z359.12-2009, ANSI A10.32-2012, CSA Z259.12, CE Certified to EN362

Special Features & Selling Points:

Automatically closing and locking gate, high strength, corrosion resistant, standards compliance, individually proof load tested, captive pin.
