COMPLIANT

H02107 LITE BELT

The GRIPPS® Lite Belt is a lightweight tool belt engineered for workers who need comfort, security, and compliance at height.

Built from durable 50mm nylon webbing, it features a low-profile, dual-action quick-release buckle that requires both clips to be pressed simultaneously to release, helping prevent accidental opening.

With a broad size range from 28" to 55" and dual adjustment systems—internal hook-and-loop fasteners and a secondary fine-tune strap—the Lite Belt delivers a precise, secure fit for individual or communal use.

Certified to ANSI/ISEA 121-2023, it provides a safe, cost-effective work belt solution for managing light tool setups with exceptional flexibility.

KEY FEATURES

Durable Dual-Action Quick-Release Buckle:

Feature a high-strength wear-resistant buckle for secure fastening and release.

Optimised for Light Tool Loads:

Designed for professionals working at heights who carry a smaller, streamlined tool setup.

Lightweight and durable construction:

Made from 50mm nylon webbing, balancing strength and comfort.

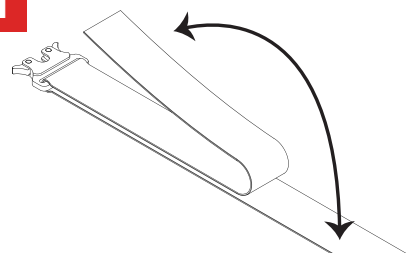

Wide, Fully Adjustable Size Range:

Accommodates waist sizes from 28" to 55" (71-140cm) with dual adjustment systems.

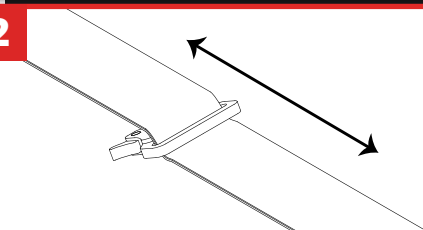

HOW TO USE

1

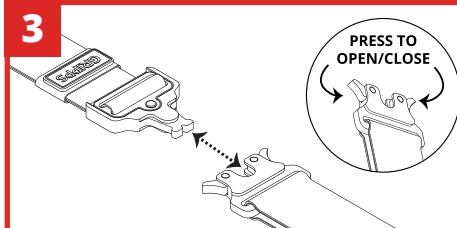

To adjust size, pry apart hook & loop fasteners on the internal face of the belt.

2

Move the buckle along the webbing to the desired length, then press and fold the belt back together.

3

To unlock the buckle, press both sides of buckle simultaneously and pull apart belt.
