

# Building Stronger Businesses Together

For over 80 years, Hein Electric Supply Company has proudly supported contractors and electricians with the products and solutions they need to succeed. As a trusted partner in the electrical industry, Hein delivers high-quality parts, innovative jobsite solutions, and personalized service that keeps projects running smoothly and efficiently. From residential builds to large-scale commercial installations, our team is committed to assisting local electrical companies.

## 80 Years of Handshakes, Hard Work, and Local Power.

### Full Service Lighting Department

Our full-service lighting department offers expert design, quotations, and job management solutions.

### Expert Gear, Outside & Inside Sales Teams

Inside sales ensures fast, knowledgeable service from the office, while outside sales builds strong customer relationships through on-site consultations and strategic guidance.

### Job Staging and Site Solutions

Whether it's temporary power setups, on-site lighting, material handling, or tailored logistics support, our team works closely with contractors and project managers to ensure every jobsite runs efficiently and stays on schedule.

### Advanced Technology for Customers

We offer Vendor Managed Inventory (VMI) and seamless eCommerce ordering—making it easy for customers to schedule convenient pickup or reliable jobsite delivery.
