

# Water Cooler Plumbed Systems

## Avalon Bottleless Water Cooler

The Avalon Countertop or floor Hot/Cold Water Cooler has an innovative design and easy-to-use paddle spouts. The highly efficient compressor makes the cold water ice cold at approximately 47° F without needing ice cubes. The hot faucet provides hot water at approximately 185° F, and a child safety lock is included. A built-in nightlight enhances visibility, and the machine is bottle-less with NSF certified activated carbon and sediment filters that purify tap water by eliminating chlorine, lead, rust, and bacteria. A leak detector automatically monitors the water flow.

### FEATURES:

- \* **DUAL FILTRATION:** Patented Dual filters are included with the water cooler. This consists of a Sediment filter and a Carbon Block filter which will last 6 months.
- \* Our water cooler is bottle-less and will reduce the cost of constant purchases of water. The water is filtered with our dual filtration system consisting of a sediment filter and a carbon block filter.
- \* **HOT & COLD WATER SPOUTS:** When you use our water cooler dispenser you can choose between a Crisp Cold & Piping Hot Output, making it ideal for cool refreshments or toasty beverages.
- \* The self cleaning ozone feature sanitizes & purifies the dispenser, which prevents the accumulation of harmful germs & bacteria for your safety.
