CONE, 2" x 3, 5/8-11 Thread, 16 Grit, Type 16, Aluminum Oxide

CONE, 2" x 3, 5/8-11 Thread, 16 Grit, Type 16, Aluminum Oxide

EDP: 61829
EAN: 4007220685808

Item number: 39008690

Abrasive cones and plugs are designed for processing workpieces made of steel, cast steel and cast iron.

Cones and plugs are made of regular aluminum oxide in a high-quality resinoid bond. Because of their hardness, these products achieve good stock removal rates and are highly durable.

Technical information

Item number	39008690
Dia. external	2 Inch
Dia. thread	5/8-11
EDP no.	61829
Grit size	16
Max. RPM	18100 RPM
RPM, optimum	18100 RPM
Width	3 Inch

Special features

- High stock removal rate.
- High level of edge and dimensional stability.
- Cool grinding reduces thermal load on the workpiece.

Safety notes

- The maximum permissible speed is calculated according to standard ANSI B7.1.
- For safety reasons, the maximum permitted rotational speed indicated must never be exceeded.

Workpiece materials

- Cast iron
- Stainless steel (INOX)
- Steel, cast steel

Applications

- Deburring
- Finishing
- Grinding out
- Grouting
- Leveling
- Surface work
- Working on edges (chamfering, rounding)
- Work on weld seams

Compatible power tools

- Angle grinder
- Flexible shaft drive
- Straight grinder
