

■ Step 6: Explore AAA Solution Pages

Learn how AAA Workspace inspires, educates, and supports every kind of workspace.

Purpose of Solution Pages

AAA Solution Pages are designed to **educate, inspire, and guide** — not to sell directly. They help you visualize how AAA Workspace supports every type of environment with ideas, insights, and curated examples. Use them to gather inspiration and understand your options before visiting product categories for purchasing.

1. Access the Solution Pages

At the top of your screen, look for the black navigation bar. Click or hover over **Solution Pages** to reveal a dropdown menu. These pages introduce you to different workspace areas and showcase how AAA helps businesses of every size create better spaces.

2. Understand What's Inside

Each Solution Page highlights unique insights, product applications, and examples — not a product catalog. You'll find:

- Janitorial Solutions – Cleaning systems, dilution control & facility care insights
- Breakroom Solutions – Coffee service & refreshment programs
- Education Solutions – Supplies and furnishings for schools and campuses
- Interior Solutions – Furniture planning and design resources
- Industry Solutions – Tailored support for healthcare, education, corporate & more
- AAA Blog – Tips, trends & workspace insights
- Ink & Toner Finder – Quickly locate compatible cartridges for your devices

3. Explore a Page

Click any Solution Page to explore deeper. Each one includes educational content, inspirational layouts, and real-world examples showing how AAA helps you build smarter workspaces. These are **idea-driven pages** — perfect for discovering solutions that fit your business goals.

4. Navigate Between Pages

You can return to the Solution Pages menu at any time from the top navigation bar. Each section connects seamlessly, allowing you to explore everything from Breakroom to Interiors to Industry insights.

5. Use While You Shop

While browsing the store, you can visit the Solution Pages to learn about related categories and best practices. These pages connect to product areas but are meant to **support your understanding**, not replace the shopping experience.

6. Tip — Stay Inspired

Bookmark your favorite Solution Pages or check back regularly. The AAA Blog and Industry Solutions sections are updated with new ideas, sustainability practices, and workspace inspiration.

■ ■ Reminder

Solution Pages are not shopping pages. They are designed to educate and inspire — helping you plan better purchases and workspace improvements before ordering from the product catalog.
