Fine Motor Development Activities

Folding & Origami Basics

Fold, create, and build fine motor skills!

Grades 2–8

30–45 minutes

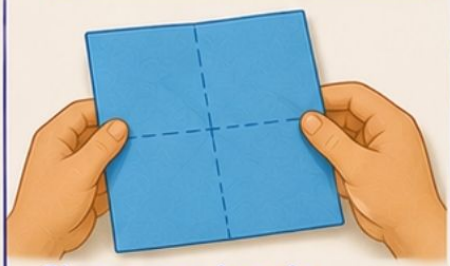

Folding + Sequencing

Students practice basic folds to create animals, shapes, bookmarks, or classroom decorations.

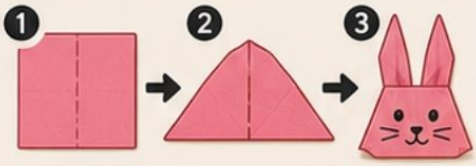

Adaptations

Use larger paper sizes.

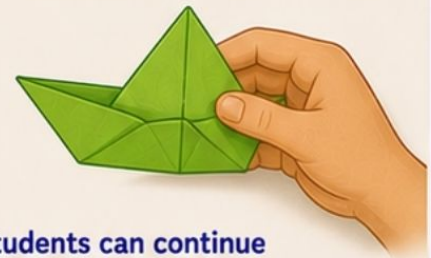

Bigger paper is easier to hold and fold.

Show one step at a time.

Breaking the activity into small steps builds success.

Provide partially started examples.

Students can continue folding with confidence.

Small hands can do big things! Practice. Create. Celebrate!
