Sensory Learning Projects

Felt Story Boards

Create stories. Build language. Express imagination!

Grades K–4

30–45 minutes

Storytelling

Students create felt characters, shapes, and scenes to retell stories or build original narratives.

Adaptations

Use large simple shapes.

Simple shapes are easier to handle and understand.

Provide story prompts.

Prompts help spark ideas and build confidence.

Allow students to point, place, or narrate.

All forms of storytelling build communication skills.

♥ Touch. Create. Imagine. Every story matters! ♥
