WEATHER SCIENCE MODELS

Explore the weather. Build understanding.

Students create models of clouds, precipitation, wind, or the water cycle.

WEATHER AFFECTS EVERY DAY!

Grade Level
Grades 4–6

Time Needed
45–60 minutes

Skills Developed
- Science vocabulary
- Model building
- Cause and effect

Inclusive Adaptations
- Use tactile weather icons.
- Provide model templates.
- Let students explain orally or visually.

Simple Steps!

1. Choose your weather topic.

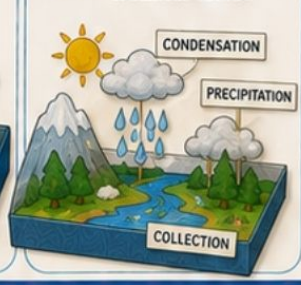

2. Plan your model.

3. Build your model.

4. Add labels and weather icons.

5. Present and explain what you learned!

Observe. Question. Model. Explain. That's real science!
