PRINTMATRIX® · ALL-IN-A-BOX MANAGED PRINT

maps modern advanced print solutions

# mpsAdvantage.

## Everything included. Nothing to administer.

Full managed print coverage for Kyocera, HP and Brother fleets — without monitoring software on your network, page counts to reconcile or a stack of transactional invoices. One decision, OEM toner at an established price, and everything else stops being a separate purchase.

## What you get

Included with your toner program.

- **Technical service & parts**
- **Maintenance kits**
- **Genuine OEM toner**
- **Ongoing consulting**
- **Single point of contact**
- **Optional print management software**

**Billed on toner shipped.** OEM toner at an established price over a one- to three-year term. Print management software is available at no additional cost, and never required — no agents on your network, no meter reads.

## How it works

### Your devices.

Kyocera, HP or Brother devices you already own stay in place. MAPS confirms coverage for each one.

### One price.

OEM toner at an established price, billed when it ships. Service, parts and maintenance kits are included.

### One partner.

MAPS is the first call for every device, with one named contact accountable for the whole program.

## Built for

**No network agents**
Environments where IT will not install monitoring software.

**Simple invoicing**
Finance teams that want one predictable supply line, not meter bills.

**Kyocera, HP, Brother**
Fleets standardized on the brands MAPS supports directly.

**Coverage without admin**
Teams that want service included without managing a program.

**One matrix. Four ways in.**

**mpsONE** — complete print-as-a-service. **mpsExpress** — turn-key management of the fleet you already run. **mpsONE Flex** — distributed print-as-a-service for branch, home and hybrid users. **mpsAdvantage** — all-in-a-box managed print with no software on your network. No tiers, no upgrades: the right one follows from your fleet and your finance preference.

**Everything included. Nothing to administer.**

A no-obligation fleet assessment takes less than a day onsite and shows you what your current environment really costs.
