MADE IN USA

Cutting Slabs and Steel Since 1980

Steel Industry Go-To

Since 1980, Flame Technologies has focused on producing the highest quality steel industry products. We are located in the suburbs of Austin, Texas with a comprehensive product offering that includes:

- Heavy-Duty Hand Cutting Torches
- Machine Cutting Torches
- Caster Cut-Off Torches and Nozzles
- Heavy-Duty Line & Regulation Equipment
- Drop Station Regulator Enclosures
- Safety Accessories

If you need a customized cutting solution, we can design and manufacture equipment to meet your unique specifications.

On-site Training & Audits

Flame Tech offers *FREE* on-site safety training, product demonstrations, and audits to ensure your team is safe, compliant, and efficient. Our highly skilled steel industry products specialists offer over 100 combined years experience with gas apparatus in scrap yards, steel mills, and other similar applications.

- Safety Inspections & Reviews
- Equipment Calibrations and Inspections
- Supervised Installations
- Custom Product Solutions
- Equipment Repair

We will send out one of our trained Steel Industry Products Specialists for a **free** site audit and conversion plan.
