COASTAL APPLICATION

Non-Metallic Air Conditioner Disconnects

About the NMHNF60R

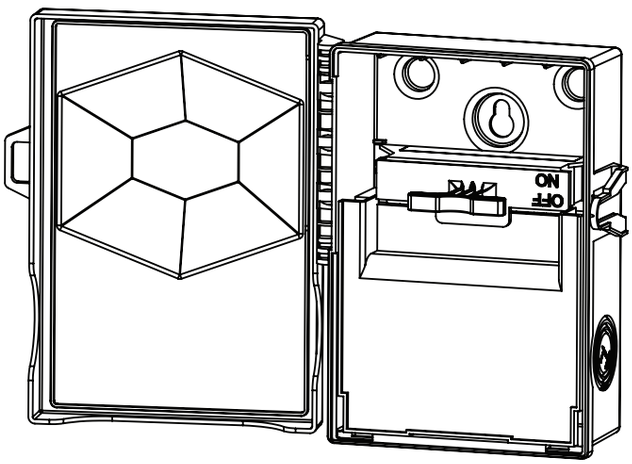

The 60 AMP Non Metallic Non-Fusible ACD is the latest in a line of innovative products from Halex. This ACD is made with the electrical and HVAC professionals in mind. The patent pending knock out seals are easier to take out so installers remove the right size faster and with less effort. In addition this product uses a proprietary material to extend the products life in costal applications. Easy to stock. Easy to sell. Easy to install. Halex is proud to take these products Beyond the Current.

60 AMP Non-Fusible

PRODUCT BENEFITS

- **Designed for costal applications:** Innovative corrosion resistant material. PPE-PS (polyphenylene-polystyrene) resist the effects of coastal salt air better than anything on the market
- **NEMA 3 Rating** - 3R
- **Concentric Knock Outs:** Knock out the correct size with less effort and more accuracy
- **Built in security:** The disconnect has a durable padlock feature for securing the box after installation
- **Easier installation:** Durable 180˚ swing hinge makes working within the disconnect box easier
- **Simplify mounting:** Requires just 2 points for safe secure mounting to walls
