

713WHPTND

13 gauge nylon liner with 7 gauge inner brushed acrylic liner with knuckle dipped bi-polymer coating

Despite the cold and wet conditions of winter, your hands will stay warm, dry and mobile with our new Insulated Bi-Polymer ¾ Dip gloves. The bi-polymer coating repels water and stays flexible in cold conditions. Plus, it helps you maintain grip in either wet or dry situations. The acrylic terry lining is soft and cushy and keeps your hands warm. Engineered yarn provides ANSI Cut A4 protection.

Features and Benefits:

- Acrylic terry lining is a soft insulation that keeps hands warm and cushions
- EN 388: 4542
- EN511: 02X
- Knuckle-dipped bi-polymer coating repels water and provides strong grip in wet and dry conditions; Stays flexible in cold conditions as low as -58°F
- Double-layer construction with an engineered yarn outer shell and a thermal inner liner provides resistance to cut hazards
- A4 ANSI CUT
